

Environmental Education Custom Program Request

Help us help you get kids outside!

The environmental education community of Greater Cincinnati wants to meet the needs of local teachers, of every grade level. If you are looking for an environmental education program on a topic not currently offered by our organizations, please use this form to request a custom program! Requests will be brought to the attention of Greater Cincinnati Environmental Educators (GCEE) and its member organizations.

We cannot guarantee that every request will be met; however, we will do our best! Please allow up to 2-3 weeks for a program offer to be made in response to your request. Thank you!

Teacher's Name: _____

Grade Level: _____

School: _____
